Features and Enhancements

Config Menu | Employment Equity Configuration menu item has been moved

Ticket ID

53775

State

N/A

Description

The Employment Equity Config menu item has been moved from **Config > Basic Settings > Legislative Configurations** to **Config > Human Resources > Employment Equity**.

This is to ensure that all Employment Equity related screens are listed under Employment Equity section under Human Resources.

New GET API endpoint | Company Training Courses

Ticket ID

52121

State

Testing

Description

GET API endpoint is now available for Company Training Courses.

New GET API endpoint | Performance Management

Ticket ID

52116

State

Ready for testing

Description

GET API endpoint is now available for Performance Management. This includes Evaluation Processes, Employee Evaluations, Raters and Employee KPI's.

Pacey | Pacey Announcement Feature

Ticket ID

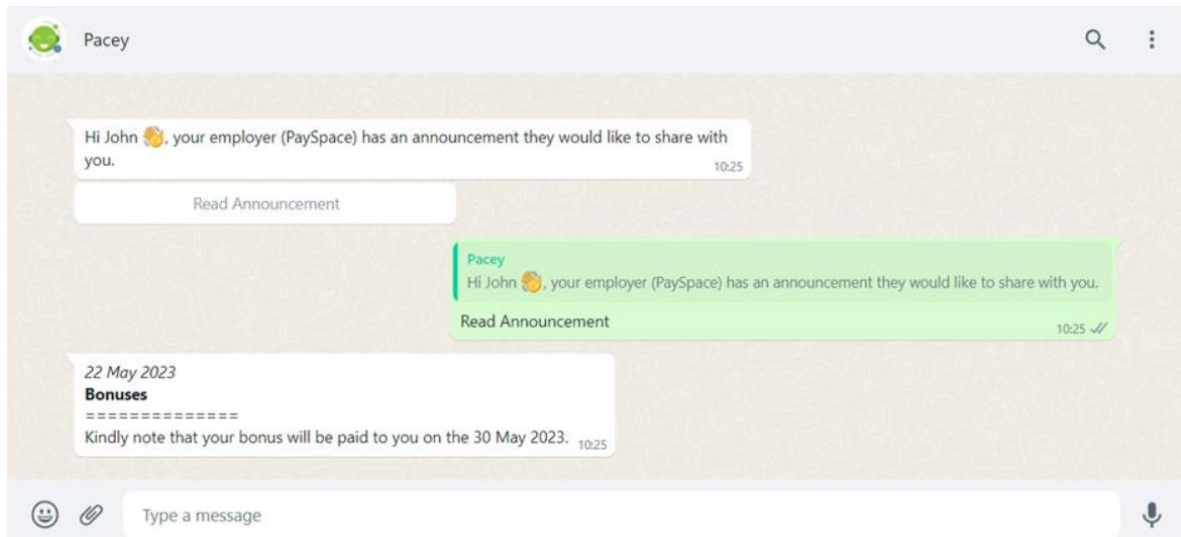

54308

State

N/A

Description

We have now included the ability to communicate a custom message to employees. The employee will be sent the following structured message to invite them to read the actual announcement, if they choose, by tapping on a “Read Announcement” button within WhatsApp, as per the following screenshot.

This feature requires that a Custom Form be setup where the user can capture the message they wish to send out. Please refer to the Knowledge Base for detailed setup guide.

Note: Custom Form Feature is only available on Master Edition and therefore this specific Pacey announcement feature is only available on Master edition, whereas the other message templates are available for customers that have licensed Pacey.

Reports | Classic Report Parameters converted to Nextgen

Ticket ID

53084

State

N/A

Description

The Classic Report Parameters screens have been converted to Nextgen for the following reports:

- Company Car report
- Employee Financial House Payments Report
- Loans Report
- Medical Report
- Savings Report

The Nextgen reports are available on the Standard Reports Tab on the Company Reports screen.
